It is an honor for me and all those involved in **Iran J Public Health**, to celebrate the 50<sup>th</sup> anniversary of the proud and uninterrupted publication of the Journal. Undoubtedly, this journal is one of the most prestigious journals in Iran and the region in publishing progressive sciences on public health. I would like to express my gratitude to all the esteemed members of the Editorial Board, referees, authors and my dear colleagues in the administrative section of the Journal.

**Iran J Public Health** has been continuously published since 1971, as the only journal in all health domains, with wide distribution (including WHO in Geneva and Cairo) in two languages (English and Persian). From 2001 issue, the Journal is published only in English. During the last 50 years, more than 5000 scientific papers, resulting from health activities, surveys and services, have been published in this journal.

To meet the increasing demand of respected researchers, as of January 2012, the Journal is published monthly. The main topics that the Journal has been published were as follows:

Bioethics, Disaster and Health, Entomology, Epidemiology, Health and Environment, Health Economics, Health Services, Immunology, Medical Genetics, Mental Health, Microbiology, Nutrition and Food Safety, Occupational Health, and Oral Health.

During this period we have published Original papers, Review Articles, Short communications, Case reports and Scientific Letters to the Editor on the above mentioned research areas.

This Journal is indexed and abstracted in: PubMed Central (PMC), Science Citation Index Expanded (SCIE) by Thompson/ISI USA, EMBASE, Chemical Abstracts, SCOPUS, ASCI, Biological Abstracts, IMEMR, CABI Publishing, Index Copernicus, Medscape, VCU Library, Extra MED, DOAJ, Ovid Medline (R), Magiran, SID, Iran Medex and Islamic World Science Citation Center (ISC), EBSCO, CINAHL

From 2001, Prof. Mohammad Bagher ROKNI, has been engaging as the Editor and Manager of the journal. It is with great pleasure to appreciate

the sincere cooperation of my colleague, from the begging until now but the present executive staff are as follows:
